Hmm... The shaking's stopped.

The Labyrinth must be stabilizing.

That surprised me.

I wonder if she's safe.

Lady Karin is teaching the Ryunos?

Huh? Yeah.

Then Elders
do not trust him.

But we must
protect her at
all costs.

Puha!

You know how strong
Lady Karin is! If anything,
she'd be the one
protecting us!

Uwahahaha!

It'd be nice
if she really were
that strong...

...and so,
Colonel Kaneta...

I did? I
don't remember
doing anything.

I feel great. My vision is clear,
too. It almost feels like I'm ten
years younger...

Ms. Kaneta? Is
that the truth?

This is a first-class
Dragon Knight's,

and this is power.

This is
when you've
activated it.

The patterns
change with each
other and the blood
becomes darker.

Thus, whenever you
activate a Dragon Artifact,
there's a small amount of
Blackstone being generated
in your body.

The Blackstone
tolerance level
varies from person
to person.

This is why
Blackstone bursts outwards
when you've exceeded that
tolerance level.

I don't know
if you're familiar with
this, but this is Mirage
Boost Poison

Mirage Boosts
secrete this into their
bloodstreams when their
poor tolerance exceeds
certain levels...

The blood has
the same pattern as
"Black Eye".

The only
difference is the
concentration.

So "Black
Eye" is...

"a concentrated
version of a specific
Mirage Boost"?

Mirage Boost
Poison is fatal to
constructors, isn't it?

Your theory.

I haven't been able
to experiment as much
as I'd have liked, so it's
just a theory.

However, the poison
seems to change its
properties when the
concentration passes
certain stages.

It's easy to dilute,
but if I try to increase its
concentration further, it'll
just destroy itself...

so I'm assuming
that "Black Eye" is
from a very high-class
Mirage Boost.

Such as the 'Imagi'?

Are you talking about the ones in legends?

Well... I suppose this concentration is enough evidence to prove their existence...

If you take this stuff, it's the same as putting Mirage Beast Person into your own body, though.

If you look at the "side effects"...

Doran Kingdom
Village

Huh? Your ears...

First, do you
put on a perfume
that attracts these
kind of people?

How are they always
around you...

Oh no! It's Mikanka
of the Iron Fist!

Run for it!

DASH!

She's a Russian
weapon!

Damn assholes.
Didn't even realize
I just saved them.

You haven't
done anything
to them yet,
right?

...could've taken
care of them...

Yo, Lord of Dorton.

Where are you going?!

I think I've been playing around a bit too much.

so I thought I'd go hunting.

Hiya!

Hey you!
Go and follow
them!

I don't want
